# STAGE DESCRIPTORS

## BASED ON CEFR GLOBAL SCALE

### Stage 3: English for Career Development - Entering at B2 and Exiting at C1

In Stage 3, learners expand their range of professional communication skills through English, enabling them to achieve greater clarity and confidence in communicating and presenting their ideas. This will help them to access opportunities and integrate in international multicultural companies where the language of coordination and management is English.

#### Learner Outcomes at C1

By the end of the course, participants will have improved their communication, collaboration, creative problem solving, and critical thinking skills to enable them to do the following in English and through technology in personal, professional and academic contexts:

1. Understand a wide range of demanding, longer academic texts, and recognise implicit meaning
2. Express him/herself fluently and spontaneously without much obvious searching for expressions
3. Use language flexibly and effectively for social, academic and professional purposes.
4. Produce clear, well-structured, detailed text on complex academic subjects, showing controlled use of organisational patterns, connectors and cohesive devices
